DETAILED ACTION

The reply and amendment filed 3/14/07 are acknowledged.

Interview Summary

The examiner has contacted her Legal Instruments Examiner (LIE) regarding the removal of the asterisk on the filing receipt.

Election/Restrictions

Applicant's election of Group II (claims 17-41), a calcium coagulator and a stem cell as the therapeutic agent in the reply filed on 4/19/06 is again acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 19 and 33 had been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 4/19/06. It is noted that these claims have been cancelled.

Claims 17, 18, 20-32 and 34-41 remain under presented for examination.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 1651

Claims 17, 18, 20-25, 27-32 and 34-41 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Independent claims 17 and 32 have been amended to recite that the medium that separates the first and second chambers is a viscoelastic medium. The specification does not recite this limitation. According to Malkin (1994), viscoelasticity includes material having elastic potential and viscosity (p. 245). Malkin also teaches that the phenomenon called thixotropy, a material that decreases in viscosity during mixing and returns to the initial level on rest after shearing, is a specie of the general phenomenon of viscoelasticity (see page 95, third paragraph, and p. 104, first full paragraph). Thus, viscoelasticity is considered to be a genus that includes various species thereof. The specification only teaches separation media that are particular species of viscoelastic material: thixotropic media, a polyester gel or a silicone gel. The specification does not teach the genus of viscoelasticity. Therefore, the newly added limitation that the separation medium is viscoelastic is considered to be NEW MATTER because the genus of this concept was not contemplated nor disclosed by the as-filed disclosure. It is clear that applicant was not in possession of the full scope of the amended subject matter at the time of filing.

Claim 26 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 1651

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
